

Temporary closure due to typhoons, heavy snow, etc.

Itoi Elementary School, Asago City

1 When an alarm is being issued at 6 am

- (1) The school will be temporarily closed.
 - * Please be sure to check on multiple media (eg, Japan Meteorological Agency website, TV station where detailed information for each city and town is broadcast).
 - * There is no notification via CATV announcement broadcast or "Sakura Contact Network".
- (2) Schoolchildren's club will not be opened.

2 When an alarm is issued after 6 am but before the school start time

- (1) As above, the school will be temporarily closed.
 - * Please be sure to check on multiple media (eg, Japan Meteorological Agency website, TV station where detailed information for each city and town is broadcast).
 - * There is no notification via CATV announcement broadcast or "Sakura Contact Network".
- (2) Children who have already attended school will respond to the situation so that they can return home safely.

3 When an alarm is issued after the children go to school

- (1) We will make a judgment regarding leaving school according to the situation and make an effort to ensure safety.
 - * We will inform you about the correspondence to school leaving by "Sakura contact network".
- (2) When an alarm is issued after the schoolchildren's club is opened, each schoolchildren's club will respond.

If you have a home that does not have a CATV announcement broadcast, please contact a household where it is installed (most households in Japan, e.g. friends or acquaintances, should have access).
--

<ul style="list-style-type: none">• For emergency contact from the school, we will use the "Sakura Contact Network". Registration is voluntary, but we ask for your cooperation in ensuring the safety of children.

<Regarding the applicable alarm>

- ◎ Types ... Heavy rain, flood, storm, heavy snow, blizzard (also "special warning")
- ◎ About the announcement area ... When the above weather warning is issued in Asago City

Attention → **Applicable warnings read:** "Warning issuance to Asago City". "Warning issuance to Southern Tajima" may be used depending on the media outlet. It is not applicable when "Asago City" is not included. Please be sure to check with multiple media outlets (eg, Japan Meteorological Agency website, TV station where detailed information for each city and town is broadcast).

<Others>

- ◎ When an alarm is issued, all staff will give top priority to the safety of children. We may not be able to respond to individual inquiries from your home immediately, we appreciate your understanding and cooperation.
